

September 5, 2011

Dear Marc,

How are you? I would like to share with you an event that happened in our 'YISHUV' this past weekend.

Friday night, September 2, just past midnight, one of the soldiers that were on duty spotted (through the Perimeter Camera System, supplied by One Israel Fund) a suspicious person approaching the security fence of the 'YISHUV'.

The soldier pointed the cameras with its high power search beam at the suspect. At this point the suspect, realizing that he was spotted, felt pressure and ran away.

The army units in the area hurried to the spot, as they felt this might have been an attempted infiltration. Our Response Teams also were alerted and responded... we didn't have much sleep that night.

B"H the "event" ended in peace.

I wanted to thank you in my name and in the name of all our 'YISHUV' for your generous help with the security cameras and equipment that One Israel Fund has supplied us with. It has helped us a lot. We constantly can feel the camera's help in securing our community and the support of One Israel Fund in the security of Mevo'ot Yericho.

Please extend our personal gratitude to the wonderful people who are involved in this project.

We look forward to your continued visits.

Merav Allouch
Head Representative of Mevo'ot Yericho
